2018-06-05	Don Ferguson	Aligned with document changes in the 3.40-3.6x series
2018-06-16	Don Ferguson	Updated to remove 4.03 ProjectRecent

NOTES:

- Modules marked in red have no Specification loaded to GitHub (as yet)
- Modules marked with "@" included for completeness, but they are not intended to be implemented before v0.4
- The second column in each section indicates the name of the file that details the specifications for coding (note that they still may be incomplete in details). At this time, this contains only files documenting elements of HRE up to v0.3.
