

# HRE

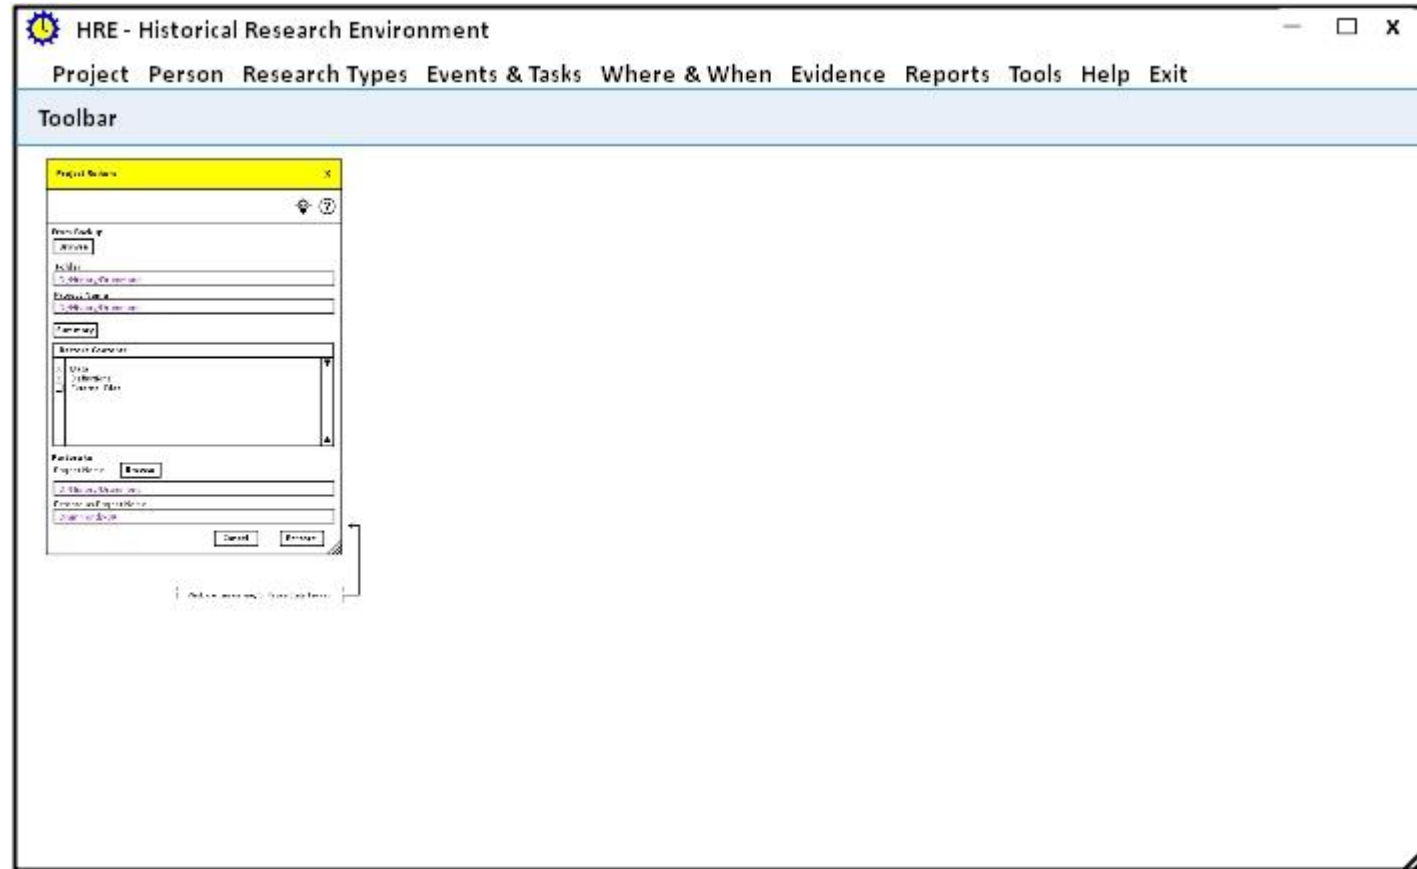

04.06 Project-Restore

# Use:

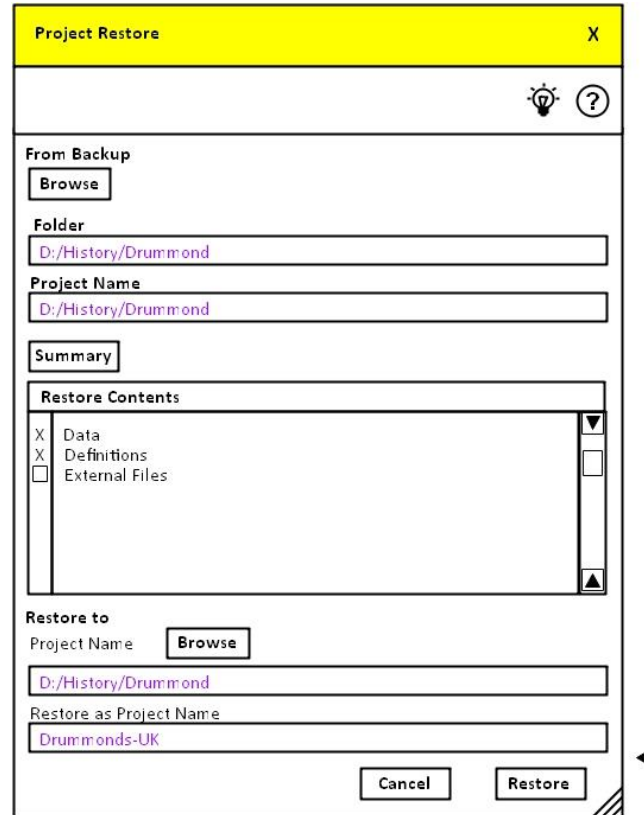

- Called from the Main menu
  - Project > Restore
- Subject to User Rights
- Restore a project from a backup
  - Optional restoration of external files and application settings
- Regression restoration allowed
- New Project added to User AUX file

# Default location

- Main Display window only

# GUI window (no Server)

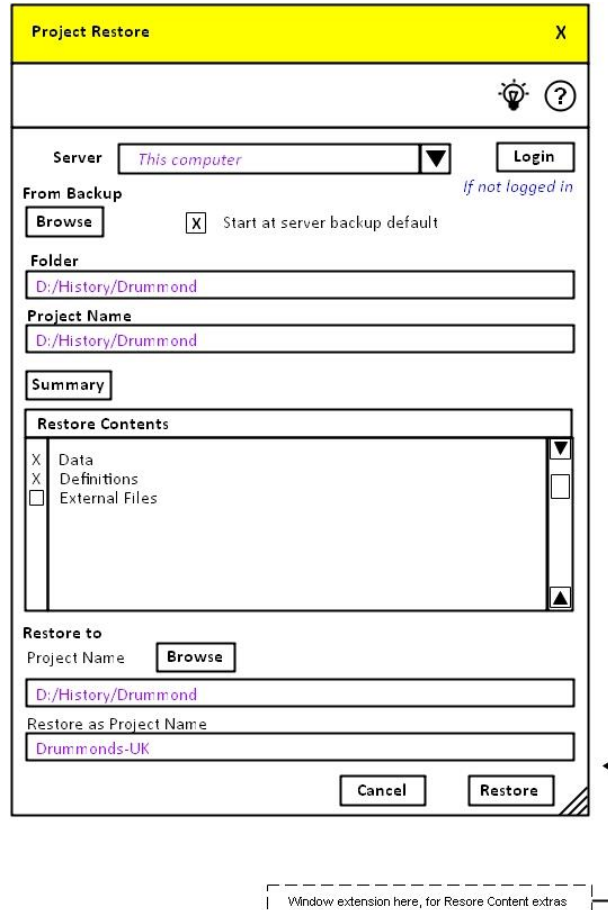

The image shows a GUI window titled "Project Restore" with a yellow header bar. The window contains several sections for configuring a restore operation. At the top right of the main area are a lightbulb icon and a question mark icon. The "From Backup" section includes a "Browse" button, a "Folder" text field with the value "D:/History/Drummond", and a "Project Name" text field with the same value. Below this is a "Summary" button. The "Restore Contents" section features a list box with three items: "Data" (checked with an 'X'), "Definitions" (checked with an 'X'), and "External Files" (unchecked with an empty checkbox). The "Restore to" section includes a "Project Name" text field with "D:/History/Drummond" and a "Browse" button, followed by a "Restore as Project Name" text field with the value "Drummonds-UK". At the bottom right are "Cancel" and "Restore" buttons. A dashed line with an arrow points from the bottom right corner of the window to a separate box below.

Project Restore	
From Backup	
<input type="button" value="Browse"/>	
Folder	
D:/History/Drummond	
Project Name	
D:/History/Drummond	
<input type="button" value="Summary"/>	
Restore Contents

# GUI window (with Server)

The image shows a GUI window titled "Project Restore" with a yellow header bar. The window contains several sections for configuring a restore operation. At the top right of the main area are a lightbulb icon and a question mark icon. The "Server" section has a dropdown menu set to "This computer" and a "Login" button. Below this is a "From Backup" section with a "Browse" button and a checkbox labeled "Start at server backup default" which is checked. The "Folder" section has a text field containing "D:/History/Drummond". The "Project Name" section has a text field containing "D:/History/Drummond". A "Summary" button is located below the project name field. The "Restore Contents" section is a list box with three items: "Data" (checked), "Definitions" (checked), and "External Files" (unchecked). Below this is a "Restore to" section with a "Project Name" label and a "Browse" button. The text field below it contains "D:/History/Drummond". The "Restore as Project Name" section has a text field containing "Drummonds-UK". At the bottom right are "Cancel" and "Restore" buttons. A dashed box at the bottom right, connected by a line to the bottom right corner of the window, contains the text "Window extension here, for Restore Content extras".
