### SCOPE

This window displays in tabular layout the last Projects that have been used from this computer.

### LOOK AND FEEL

The window has the following sections:

- The Heading with command buttons:
  - “Configure” icon to access the configuration alternatives for this window. Here the length of the recent Projects list and the choice of output columns can be set. The choice of displayed fields and their format and order can be specified. Here previously saved configurations can be selected or a new configuration created. Typical fields include Project Name, Storage Location, Last Closed (Date/Time), Name of Last User
  - “Output” icon to open a window that will output the contents of the Recent Projects List as a file or print it.
  - “Reminder” icon to display the Reminder content for this window
  - “Help” icon to display context Help about this window.
- Recent Projects List section:
  - A scrollable resizable tabular display with one row per Project in last-used order
  - Clicking on a row of the table selects that Project and opens it.
- Bottom section:
  - Includes a “Close” button to close this window.
