GUI Documentation

The documents in the following files (in the 03.51 onwards set) document the intended layout of HRE's GUI screens and the intended icons for use within them.

The diagrams contained in these documents are mockups. They show the content in the order of expected use. The final outcome in code is likely to be more compact. The use of heading and value fields on separate lines is the simplest method that can handle the change in length of translated strings from language to language. These designs are not considered final but have been produced so that there is a common frame of reference for programming guidance and subsequent test review.

The various documents are:

03.51 GUI Icon-Configuration

03.52 GUI Icon-Help

03.53 GUI Icon-Information

03.54 GUI Icon-Reminder

03.55 GUI Icon-Text Format Output

03.56 GUI Icon-Window size control

03.60 GUI - Configure Columns

03.61 GUI - Configure Focus

03.62 GUI - Configure Output

03.63 GUI - Configure Rows

03.64 GUI - Configure Size

03.65 GUI - Message Editor

03.66 GUI - Message Patterns

03.67 GUI - Multi Column List Patterns

03.68 GUI - Select Configuration

03.69 GUI - Select Recent Value

Note that these are listed in pure alphabetical sequence rather than any logical usage sequence.
