

GUI_Icon-Import and Export

Revision history

2018-06-12	Rod Thompson	Original draft
------------	--------------	----------------

SCOPE

Icons are used extensively throughout the HRE application, in all window displays.
This document details use of the icon used to initiate data IMPORTS to and EXPORTS from HRE.
Each icon is in fact a button control, with a unique image that identifies its use without additional descriptive text

Note: Name changes may apply when the Import and Export functions of the GUI are defined.

LOOK AND FEEL

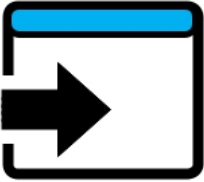

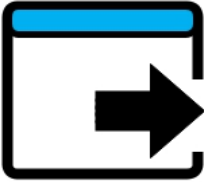

Colour icons may be used in the main application window. (possible issues if user changes background palette)

Black & White icons will generally be used in sub-windows.

LABEL

Import or Export respectively

IMAGE

	
File: Import_CLR_V1_24x24.ico File: Import_CLR_V1_32x32.ico File: Import_CLR_V1_48x49.ico	File: Export_CLR_V1_24x24.ico File: Export_CLR_V1_32x32.ico File: Export_CLR_V1_48x49.ico
