

# HRE

05.30 GUI\_Viewpoint

# Used By:

- Called by menu selection
- From with the Project New module
- From the Project Open and Project Restore modules  
(when a previously unknown project is accessed)
- From the Main menu
  - Tools > Settings

# Viewpoint

- Located on the Main Display, below the right-hand end of the toolbar

# Viewpoint (main window)

The screenshot shows the 'Viewpoint' application window. The title bar is yellow and contains the text 'Viewpoint' and a close button 'X'. Below the title bar is a toolbar with a lightbulb icon and a question mark icon. The main area is divided into several sections. At the top, there is a 'Project' section with a text input field containing 'Project Name' and a button 'Add second project'. Below this is a section for managing viewpoints. It is split into two panes: 'Available Viewpoints' on the left and 'Selected Viewpoints' on the right. The 'Available Viewpoints' pane has a list box with the following items: 'Category Name', 'DEFAULT', 'PERSON', 'ONS1', 'EVENT', 'LOCATION', 'Museum', and 'Others...'. The 'Selected Viewpoints' pane has a list box with the following items: 'Category Name', 'Person ONS1', and 'Event Pauls View'. Between the two panes are two buttons: 'Add >>' and '<< Remove'. Below the 'Selected Viewpoints' pane is a 'Selected' label and a text input field containing 'Viewpoint name'. At the bottom of the window, there are four buttons: 'New', 'Edit', 'Accept', and 'Cancel'.
