

# HRE

04.01 - Main Display

# Main Display window

# Main Display window

- Always required – for Program GUI
- A fixed size Startup Display is needed so HRE can be started on computers with a variety of screen sizes
- The Startup Display window is hard-coded in application (sized to fit on a small display (1366x768))
- Once a Project is 'open' the Startup Display becomes the HRE Main Display window (configured) and can be resized and relocated
- This window is for genealogy purposes
- A generic menus display may be required when other applications arise
- Added to Container1

# General

- Window size control icons in top right corner of window
- HRE application icon in top left corner of window, with application name following
- Main menu bar
- Toolbar
- Window resize/relocate symbol  in bottom right corner of all applicable HRE windows

# Project menu

- |                  |                         |
|------------------|-------------------------|
| • Open           | invokes GUI_OpenProject |
| • New            | “ GUI_ProjectNew        |
| • Backup         | “ GUI_ProjectBackup     |
| • Restore        | “ GUI_ProjectRestore    |
| • Close          | “ GUI_ProjectClose      |
| • Copy As        | “ GUI_ProjectCopyAs     |
| • Rename         | “ GUI_ProjectRename     |
| • Delete         | “ GUI_ProjectDelete     |
| • Close and Exit | “ GUI_ExitHRE           |

# Person menu
